Lancaster Farming

VOL. 9 NO. 7 | Lancaster Farming, Saturday, January 18, 1964 | $2 Per Year

PENNSYLVANIA'S STAR FARMER, Harold J. Brubaker, is congratulated by his parents, Mr. and Mrs. Paul N. Brubaker, Mount Joy R1, after the award was made Wednesday by the Keystone Association of Future Farmers of America. Presentation was made at the state association annual winter meeting in Harrisburg. L. F. Photo

Harold J. Brubaker Is State FFA's Star Farmer

The highest honor which the Future Farmers of America can confer at the state level — designation as the FFA's "State Star Farmer" was won Wednesday by Harold J. Brubaker, Mount Joy R1.

Brubaker, a senior at Donegal High School and the 17 year old son of Mr. and Mrs. Paul N. Brubaker, had been named Star Farmer of Region II In winning the state award, he outscored four other regional Star Farmers and won $200.

The other four regional winners, each of whom received $75, were James M Denkenberger, 18, Troy, RD 2, Bradford County, Terry L Adams, 17, McClure, RD 2, Snyder County, W Ronald Hodge, 16, New Castle, RD 7, Lawrence County, and Richard Kantz, 17, Cochranton, RD 3, Crawford County

Brubaker's selection as winner of the coveted FFA honor was announced at the climax of Pennsylvania FFA's Farm Show convention late Wednesday night

Earlier, Governor William

Guernsey Men Elect Witmer To State Board

State Guernsey breeders elected J Rohrer Witmer, Willow Street R2, secretary during the annual meeting this week at the Farm Show

President elect is Clarence R Hack, Berwick, Columbia County Vice president is S C Martin, New Geneva, Fayette County.

An engraved trophy was presented to Raymond and Louise Witmer of Pen Del Farm, Willow Street R1 Based on Dairy Herd Improvement Association records, the awards recognized outstanding milk production The Pen Del herd produced an average of 594 pounds of butterfat and 11,751 pounds of milk.

Farm Women Re-Elect Mrs. Risser

Mrs. Abner Risser, Bainbridge R1, was re-elected treasurer of the Farm Women of Pennsylvania at its 45th annual meeting this week at the Farm Show in Harrisburg.

Mrs. Elmo Mentzer, 907 W Louther St., Carlisle, Cumberland County, will serve a three-year term as president and succeeds Mrs Edward Boyd, Stoystown, RD 3, Somerset County

Mrs W F Dummer, Thomasville, RD 1, York County, was elected first vice president, and Mrs Kenneth Staver, Palmyra, RD, Lebanon County, second vice president

Directors elected were Mrs. James Boswell, Collegeville, RD 1, Montgomery County, Mrs Virgil Duppstadt, Stoystown, RD 3, Somerset County, Mrs Henry Grove, Star Route, Shippensburg, Franklin County, and Mrs Lee S Richards, McConnellsburg, Fulton County.

4-H Wildlife Reports On Animal Feeders

By: Eric Stoner, Reporter

Plans for the March 18 4-H Wildlife club roundup were made Thursday night when the club met at the home of Melvin Long, Lititz R3 The roundup will be held at the Production Credit office on West Roseville Road

Club members reported on animals and birds seen at their feeding stations during the month As a game, Melvin Long asked club members to identify seeds of familiar plants and other small objects found around the farm

Jay Foreman, Lititz R1, will host the next meeting on February 19.

County Exhibitors Win Many Championships

At the end of judging Thursday at the 48th annual Pennsylvania Farm Show, Lancaster County exhibitors had garnered five grand championships, eight reserve grand championships, six champions, five reserve champions eighty four first place ribbons and 320 minor ribbons

While the wins were impressive, they were running somewhat behind last year's totals County winners this year had won $3,168 95 in prize money at the end of four days of judging

Starting on Monday, Melvin S Fisher, Strasburg R1, showed the grand champion hand of wrapper tobacco, and Richard Thomas, Millersville R1, had the grand champion filler hand Randall Edwards, Ephrata R1, and Mark Nestleroth, Manheim R3 split the 4-H honors, while the FFA awards went to Donald Herr, Lancaster R4, and Glen Schultz, Pequea R1.

C. Warren Leininger, Denver R2, showed the grand champion Spotted Poland China gilt to match his 1963 feat.

In the poultry division, Zimmerman Turkey Farm, Lancaster R2, showed the best Turkey, while Harry Lampartter, Mountville, showed the champion and reserve champion dressed turkey Best large male of the show was exhibited by Emory F. Grove, Adamstown.

Edwin R. Harnish, Christiana R1, showed his Ayrshire cow, Dixie Pretty, to the top spot of the 4-H show and went on to take reserve senior and reserve grand championship of the open show Reserve grand championship in 4-H competition was won by Paul Brubaker, Lititz R1. In Brown Swiss dairy cattle, Harold J. Brubaker, Mount Joy R1, had the junior championship of the open show.

Twin Oaks Farm, Quarryville R2, showing as Frey Brothers took reserve Grand Championship honors in market steers after winning the reserve championship of the open class. Reserve breed championships went to Mae Mast, Elverson R2, whose Angus went on to reserve grand championship in the 4-H show, and Mary Jane Herr, Refton, who showed the runner up Hereford in the open classes

Donald Miller, Elizabethtown R1, exhibited the grand champion pen of three 4-H market lambs as well as the grand champion individual lamb. He went on to repeat his win in the open market lamb classes. Reserve champion honors in the 4-H pen classes went to Kenneth Hess, Strasburg R1

Following are county placings in the agricultural divisions of the show:

HAY

Class 62, Alfalfa, later cutting - 2, Galen Crouse, Stevens R1.

Class 69, Grass, first cutting - 2, Galen Crouse.

(Continued on Page 4)

County Native Is Honored As Master Farmer

A former Lancaster County resident was named one of six Penna Master Farmers at a luncheon Tuesday in the Penn Harris Hotel, Harrisburg

William R Myer, Myerstown, Lebanon County, brother of Mark Myer, Lampeter, former president of the Lancaster County Poultry Growers, was cited for outstanding agricultural and community leadership

Myer operates a dairy, steer, turkey, broiler and laying hen farm in Lebanon County

The awards were co-sponsored by the Pennsylvania Farmer magazine and the Extension Service of the Pennsylvania State University The winners were selected from nominations submitted by fellow farmers, readers, and county agricultural agents

Elmer Lapp Is Re-elected

The Pennsylvania Horse and Mule Association meeting in Harrisburg this week re-elected Elmer D Lapp, Kinzers R1, to a one year term as vice president

Other officers re-elected were president, John P Bloom, Ebensburg, secretary William Cruikshank, Valencia R2; treasurer, J Fred Campbell, Tyrone

The association pointed out the need for additional space at the Farm Show, saying that 120 horses were entered in the five day show but stables were available for only 98

FIVE-DAY WEATHER FORECAST

Temperatures during the next five days are expected to average 4 to 10 degrees above the normal range of 23 at night to 39 in the afternoon. Temperatures are expected to remain mild for the season through most of the period. Precipitation may total less than 0.2 (melted), falling mainly near the end of the period.

CASE
ONE-LEVER DRAFT CONTROL

You'll like the draft control on the Case 430 and 530 tractors.

A *single* lever lets you raise and lower implements . . . set draft *and* depth . . . make momentary adjustments in the draft as desired.

The draft control is easy to get at. All Case Draft-o-matic components are *outside* the tractor for fast and easy servicing — you don't have to open up the tractor. And Case Draft-o-matic, with fewer moving parts, and less "travel" as they work, means less adjustment, less wear, less maintenance cost.

See this smoother, more responsive draft control. It's just one outstanding feature of the world's diesel fuel economy champions of their class — the 3-plow Case 430 and the 3-4 plow Case 530. Then see proof of performance on your farm. We're ready to demonstrate.

LANCASTER POULTRY CENTER

Broiler Prices Ease Back

Live broiler prices ranged 16.0 to 19.0 for a sale average of 16.39 at the Lancaster Poultry Center this week as 37,700 head in 11 lots were sold.

The January 16 average was down more than a cent from the previous week, but was more than a cent above the comparable sale a year earlier.

Three lots of heavy fowl including 4,850 birds brought 18-18.5. A lot of 500 roasters sold for 22, and a lot of 6,000 leghorn fowl changed hands at 9 cents a pound. All birds on offer were sold.

The auction offered and sold 49,220 birds in 16 lots.

The complete auction report follows with lot number, seller, grower in parenthesis, amount and breed, age in weeks and days, buyer and price.

● Delmarva

Prices Steady, Demand Fair

Live broiler prices in Delmarva continued steady at 15.0 to 16 1 at farms during the 24 hour period ending 10:30 Friday morning. Reported purchases were 904,100 head including 422,600 offered and sold at Thursday's auction in Selbyville, Del. Demand was fair for the moderate offerings.

Ready to cook demand was mostly fair with prices mostly a half cent lower as processors attempted to spur purchases.

Estimated slaughter by eastern shore processors for the week end was 877,000 head compared to the 844,000 head last week end.

The Delmarva broiler-feed ratio for the week ending January 10 was up four points at 3.2. Broilers during the week averaged 16 08 per pound and mash cost the grower $100.14 per ton.

Better placed
GRAIN
FERTILIZER
SEED

with
ALL-CROP Drills

Accurate, MICRO-FEED placement through the TWIN BOOTS meters grain and fertilizer carefully . . . separately. No danger of burning.

Rear-mounted hopper for small seed puts clovers or grass in a band immediately in front of rubber press wheels. The result is a better stand, faster sprouting . . . and better weed control because only the seeded band is pressed.

Come in today. Let us show you the many other advantages of ALL-CROP drills that add up to better stands . . . with less seed.

A MODEL TO FIT YOUR NEEDS
Fertilizer Drills — 6 sizes, from 4¼ to 14 ft, all with 7 in runs
Plain Drills — with big grain hopper, no fertilizer hopper 5 sizes, from 7 ft, 7 in to 14 ft, with 7 in runs and a 13½ ft model with 10 in runs
Tractor-Mounted Drills — 3 sizes, from 4½ to 7 ft, 7-in. with 7-in runs.

Your Choice of Equipment—Single disc openers with regular bearings or sealed ball bearings, double disc openers, three kinds of hitches, wide or narrow press wheels

ALL CROP is an Allis Chalmers trademark.

Ask us about the Allis-Chalmers plan to finance your time purchase of farm equipment.

From Where We Stand . . .

Confusion Compounded By Snow

The police officer stood there blandly waving the traffic into the funnel alongside the Farm Show building.

And like a lamb following the Judas goat, we followed the line thinking that the next entrance to the parking lot would be open and we would find a place to leave the car.

We kept following the line of traffic, being blocked at every attempt to enter the parking lot. After driving clear past the lot and out into the country, we turned around (at peril to life and limb) and came back.

Despite our protestations that we had a heavy camera to carry and that we ought to be in there covering a judging event, we could not get on the lot. Finally in desperation we parked illegally about six blocks away and hiked.

Now we are not asking for special privileges, and we know that many others had the same experiences. That is just the point.

We realize that snow removal on the big lot is a monumental task, and that snow removal equipment was needed for clearing roads on Tuesday, but this is not our complaint.

The snow was not off the lot. The policemen knew it The visitors arriving at the Farm Show did not Yet the policemen continued waving the line of traffic into the funnel without so much as a word of what was to come.

We do not complain that the snow was not removed, and we believe that it was removed as soon as possible, but we do think some warning could have been given to the visitors before they drove into a narrow road lined on both sides with parked cars and hardly any safe way out.

We have heard so much about "Farm Show weather." This year it lived up to its reputation. Farm Show officials and police officials can not say they were not forewarned. They surely can not say that they have never experienced bad weather at the Farm Show before We believe they could have planned better how to handle the traffic

Again we do not complain that the parking lot was not plowed, we do not complain that we had to walk several blocks, but we do believe that the traffic hazards were multiplied by running a string of cars onto a road where no parking was available and no decent place was provided for cars to turn around

At least that's how it looks from where we stand.

★ ★ ★ ★

Farm Show Weather

For those of you who stayed home Monday and Tuesday, let us say there was one advantage to being at the Farm Show on those two days.

One could walk almost the entire length of the Farm Show building without being jostled or poked in the ribs with a yardstick.

One fellow was heard to say, "This is the first time I was ever able to see the exhibits in comfort."

Well, this may be so, but of what use are the exhibits if only a few people see them? One thing that makes the big indoor event so valuable is the large number of rural folks that attend each year to see the new machinery and fine livestock, and visit with other farmers and men in Agri-business.

But by Wednesday the crowds did come. Not as many as in some years, to be sure, but enough to make it a truly fine show. And after taking the tour through barns, arena and main exhibition area, we know why the Pennsylvania State Farm Show is the envy of many states. It is an agricultural show — one of the best in the world — and it does not pretend to be anything else.

At least that's how it looks from where we stand.

★ ★ ★ ★

Why Prophesy Doom?

On all sides we hear agricultural economists saying that net income from farming will be less in 1964 than in 1963.

Why this gloomy outlook?

The population spiral continues, and where there are more people there are more mouths to feed and more backs to be clothed. If the potential market is growing, why the poormouth attitude?

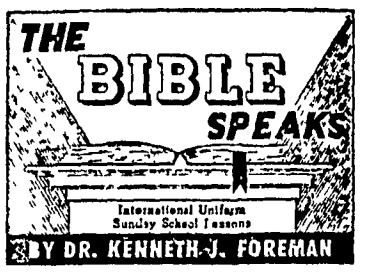
Economists tell us that costs of production will be higher in the coming year This is nothing new. Costs of production have been going steadily higher for many years.

They tell us that per capita consumption of many basic foods has declined because people do not work as hard as they once did. This is not new either. People have been eating lighter meals for many years, but the increase in population has more than offset this.

We believe that farmers can talk themselves into a poor farming situation. We do not believe this is a year for caution in farming.

We believe that efficiency is as important as it always was. There never was a time when efficiency had a place in agriculture, but we believe that the efficient farmer can, and will, make a good living in 1964. But if 1964 is a poor year, we have had them before and the farmers came through. We believe they will again.

At least that's how it looks from where we stand.



A Cautious Man

Lesson for January 19, 1964

Background Scripture: John 3:1-21; 7 40-62; 19:38-42.
Devotional Reading: I John 5:6-14.

NICODEMUS might have been one of the Apostles. He had more to start with than some of them did. He had education and money, for example, not to mention great prestige as a member of the Jewish Council or Sanhedrin as it was called. But his case goes to show that it's not what you have that counts, it is what you do with what you have

Dr. Foreman

This man Nicodemus has been described in various ways. Some have thought that he came under the everlasting condemnation of God because he did not speak out boldly as he should have—he was a disciple who arrived too late. Others on the contrary paint Nicodemus as being as much of a disciple as the circumstances permitted, a man whose faith triumphed in the end.

He came by night

The thing that most people remember about Nicodemus is that he "came by night" to Jesus. That does not label him a coward, but it does show him to be a cautious man. He was willing, indeed almost eager, to hear what Jesus had to tell him. Only he didn't think it would do his prestige any good to be seen interviewing Jesus, and admitting that he, a ruler in Israel, did not know all he needed to know about religion.

Jesus did not brush him off. If the Lord had despised him or thought him altogether a coward, he would not have said to him the things he did. Some of the most profound things Jesus ever said were spoken in conversation with this careful, timid man. It is rash to say that Jesus failed to convert this distinguished personage. Nicodemus was not convinced that very evening, he took time to think it over. He took too long; for he never stood up for Christ until matters had gone too far to change. However, he did think, and seems to have come out openly for Jesus at the last.

Caution to the last

Nevertheless, Nicodemus never became a bold man. When he spoke a moderate word for the Rabbi from Nazareth, he did not profess to defend him. All he said was that Jesus deserved a fair trial. Even that little was too much for the Sanhedrin, and they shouted Nicodemus down. Nicodemus did not try it again, we may infer. Then after the death of Jesus, Nicodemus and Joseph of Arimathea joined in caring for the body. Yet even here the reader notices that it was not Nicodemus but Joseph who took the lead. Nicodemus was doing a costly and gracious act, but he was led in this by another man.

All the same, though as was said, this "ruler" never became outstanding for heroism, the fact remains that asking Pilate for the body of a man just executed by Pilate's own order took more courage than coming to Jesus by night.

What he missed

After all's said, it still is a fact that Nicodemus missed a great deal by not becoming a disciple in the whole-hearted way of Peter and John. He missed what he might have had, association with Jesus through those years of conflict. Not only that, he missed the great joy the disciples had in serving the Master. There can't be much doubt that the twelve apostles, humble and ordinary men though they were, did more for their fellow-men during those years with Jesus than Nicodemus ever did in the same space of time. Nicodemus cut himself off from joy and from usefulness, by his cautious and "cagey" approach to faith.

People today are like that man, sometimes. They expect to be saved in due time, but they are in no hurry. They want a lot of evidence to convince them. They spend too much time, by the river of Truth, testing the temperature of the water and never heartily diving in. A Nicodemus may arrive in the end; but think what he misses along the way!

(Based on outlines copyrighted by the Division of Christian Education, National Council of the Churches of Christ in the U. S. A. Released by Community Press Service.)

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

To Segregate Animals

Animals that have been transported to or from shows or sales should be kept separate from the rest of the herd for at least three weeks. Shipping fever is one of the worst infections among cattle during the winter months. Farm Show animals that have been injected against the infection may not come down with the trouble, but they may spread it to other non-injected animals. Be safe and do not expose the rest of the herd to these show or sale animals.

To Feed Quality Hay To Calves

Many good dairymen feed the young heifer calves the very best hay in the barn. Green, leafy, legume hay will be readily consumed by the young calves and is excellent for them; with free access to quality hay (and that isn't easy this year) the calves will make good growth with roomy middles.

To Make Plans For Top-Dressing Crops

A quick look at the calendar reveals that in about 8 weeks some spring growth will be starting in pastures and small grain fields In many cases a top-dressing of nitrogen fertilizer early in the spring will increase growth and yields of the grain Winter wheat and a straight grass pasture or hay field will respond very well to this treatment. One of the best times to make this application is early in the spring when the first new growth appears.

Vegetable Conference

A vegetable conference will be held from January 27 to 29 at The Pennsylvania State University.

The conference is sponsored by the Pennsylvania Vegetable Growers' Association and the Pennsylvania Canners' Association in cooperation with the Department of Horticulture and the Agricultural Extension Service at The Pennsylvania State University As a part of the Penn State educational program, it is open to any interested person who wishes to register.

Your Herd Will Produce More Milk With Green Pastures Dairy Pellets!

GREEN PASTURES DAIRY PELLETS MEAN MORE MILK AT LESS COST BECAUSE . . .

- A cow can make part of her required amino acids in the rumen but an efficient ration must supply the missing elements and also the balance. Green Pastures Dairy Pellets are full of high-quality protein that produces the amino acids your cow needs to produce more milk!
- Your cows' body functions require minerals and in Green Pastures Dairy Pellets you'll find them accurately balanced and supplied. Green Pastures is designed to keep cows healthy. And you know a healthy cow produces more milk!
- Green Pastures Dairy Pellets contain vitamin supplements according to the latest proven nutritional findings. These vitamins are essential whether your cows are on pasture or being barn-fed and they result in higher milk production.
- Progressive dairymen who are feeding MILLER & BUSHONG GREEN PASTURES Dairy Pellets recognize the outstanding nutritional value of this feed. Their herds are responding with more milk at lower cost per cow!

For the Farm Wife and Family

What Makes A Party Click?

By Mrs. Richard C. Spence

SPENCE

Why, the food, of course! Plus good planning The experienced party-giver knows that a well-planned party is the best. Sit down with pencil and paper and make out a full, complete time schedule for the whole day on through the evening. Begin it with morning or afternoon "made ahead" food preparations, allowing plenty of time for each item List each task and set a time for each item List each task and set a **of day to do it. Include your personal** preparations, too, like shampooing, manicure, etc Run through your schedule mentally to be sure you've not forgotten anything You might have a trial run with your family a few nights before, serving them your menu

NOTEWORTHY TIPS ON PARTY MEAL PLANNING

1. Start small. Plan your first party for just a few friends or the family. Then as you get more experience, plan larger gatherings.

2. Plan your menu around current "best buys" at the food market, if you can. A few pennies saved in one place need last minute preparations can be splurged in another.

3. Don't plan foods that all A casserole-type main dish that can go from oven to serving table is best, a made-ahead salad, a simple vegetable and ready-to-bake rolls will make no last minute hazards and require you to spend a minimum of time away from your guests.

4. Try organizing your food preparations much as you would in the food lab, setting out and grouping food and utensils needed Open cans and packages before needed Wash or put utensils to soak as used.

5. Put all that new-found meal-planning knowledge to work to be sure that your table is set properly and attractively, that you have adequate serving dishes, that your meal is nutritionally sound and that it has color, temperature, texture and flavor variety.

* * *

BUFFET-STYLE PARTIES

Serving the food at your party from a buffet table is one of the most popular ways of serving a meal. You can serve a large group of people with the least amount of work for the hostess, and it can be done more quickly Hot foods can be kept hot in chafing dishes, foods can be served more attractively Here is a suggested menu for a buffet dinner. The starred items have recipes to follow.

Vegetable Juice Cocktail
Upside-Down Ham Loaf
Sweet Potato Casserole
French-Cut Green Beans
Cabbage-Pepper Slaw
Orange Bran Muffins
Butter Balls
French Cherry Dessert
Coffee

***UPSIDE-DOWN HAM LOAF**

2 teaspoons flour
¼ cup brown sugar, firmly packed
¼ teaspoon ground cloves
1 cup seedless raisins
***
4 cups corn flakes or 1 cup packaged corn flake crumbs
1 pound ground smoked ham
½ pound ground lean pork
½ pound ground veal
2 eggs, slightly beaten
1 cup milk
½ teaspoon salt
2 tablespoons finely chopped green pepper

Combine flour, sugar and cloves; sprinkle evenly over bottom of well-greased 9½ x 5¼ inch loaf pan. Spread raisins evenly over sugar mixture.

Thoroughly combine meats eggs, milk, corn flake crumbs, salt and green pepper; pack lightly in pan over raisins. Bake in moderate oven (350 degrees) about 1 hour. Let stand a few minutes, then turn loaf upside-down onto heated serving platter Serve immediately 8 to 10 servings.

* * *

***ORANGE BRAN MUFFINS**

1 cup bran buds
¾ cup orange juice
1 egg
¼ cup soft shortening
1 teaspoon grated orange rind
1 cup sifted flour
1½ teaspoons baking powder
¼ teaspoon baking soda
½ teaspoon salt
2 tablespoons sugar

Combine bran buds and orange juice, let stand until most of moisture is taken up. Add egg, shortening and orange rind; beat well. Sift together flour, baking powder, soda, salt and sugar. Add to first mixture, stirring **only until combined.** Fill greased muffin pans ⅔ full. Bake in moderately hot oven (400 degrees)about 20 minutes. Serve immediately. Makes 11 muffins, 2½ inches in diameter.

* * *

***FRENCH CHERRY DESSERT**

2 cups corn flakes or ½ cup packaged corn flake crumbs
3 tablespoons confectioners' sugar
½ cup sifted flour
½ cup butter or margarine
***
¼ cup sifted flour
½ teaspoon baking powder
¼ teaspoon salt
2 eggs, well-beaten
1 cup sugar
1 teaspoon vanilla flavoring
½ cup chopped nutmeats
⅓ cup flaked coconut
½ cup maraschino cherries, halved, drained

If using corn flakes, crush into fine crumbs. Combine confectioners' sugar, flour and corn flake crumbs in mixing bowl. Cut in butter until mixture resembles coarse corn meal. Press into bottom of 8 x 8-inch baking pan. Bake in moderate oven (350 degrees) about 25 minutes or until lightly browned.

Sift together flour, baking powder and salt. Blend eggs, sugar and vanilla. Stir in sifted dry ingredients. Fold in nutmeats, coconut and cherries. Spread over baked crust. Bake in slow oven (325 degrees) about 40 minutes or until done. Cool. To serve, cut into squares and top with whipped cream or ice cream, if desired. 9 servings.

* * *

With Chinese foods being so popular these days, what could be more fun than having a party on the Oriental theme. Decorations could be inexpensive; food could be inexpensive as well as scrumptious. A main dish to be served at a buffet of this type could be Spareribs Oriental, a dish to satisfy the most discriminating with its interesting blend of flavors and attractive, richly glazed appearance. These spareribs are a boon to the hostess as they can be prepared in advance, wrapped in individual servings in foil, stored in the refrigerator until 30 minutes prior to the party, then reheated in a 350 degree oven.

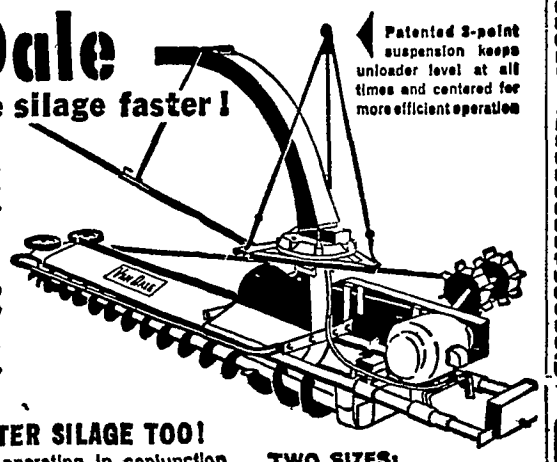
Get the BIG silo unloader value!

VanDale
Delivers more silage faster!



Patented 3-point suspension keeps unloader level at all times and centered for more efficient operation

- Double auger system digs the silage faster and more evenly under all conditions whether silage is frozen, wet, or dry.
- Exclusive, adjustable drive hub gives more positive traction, keeps the machine operating evenly, and requires less power.

DELIVERS BETTER SILAGE TOO!
The double augers, operating in conjunction with the patented V-paddle impellers, *digs* the silage, mixes it thoroughly, and then *throws* it down the chute. Your cows and cattle get good, palatable silage . . . not a powdered mash as so often happens with unloaders using blowers.

to 3-inch squares
up cornstarch
up molasses
up soy sauce
up vinegar
up water
2 can pineapple chunks, serving juice
reen peppers, cut in 1-inch quares

ve sparerib bones crack- half; cut ribs into 3-inch qu res. Preheat Dutch oven; ro n ribs, a few at a time. mbine cornstarch, molasses, oy sauce; blend thoroughly nt smooth. Spread sauce on oth sides of ribs; rebrown uickly in hot fat; return all ro ned ribs to Dutch oven. mbine sugar, vinegar, water, inepple juice, heat until sugar dissolves; pour over ribs; cover. Simmer 1 hour or until done. Add pineapple chunks, green pepper; cover; simmer 5 minutes longer. Divide spareribs into 8 portions, place each portion in center of an 18" square of aluminum foil; top with pineapple chunks, green pepper, sauce. Close foil around ribs sack-fashion allowing ends to flare out like a hobo-knapsack; place in shallow bake pan; refrigerate. When ready to serve, heat ribs in foil sacks for 30 minutes at 350 degrees 8 servings.

* * *

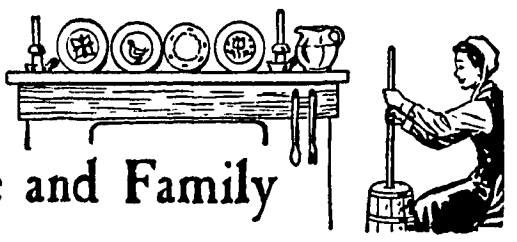
A delicious accompaniment for the spareribs is Chow String Beans with Sour Cream.

CHOW STRING BEANS WITH SOUR CREAM

2	10-ounce packages frozen cut green beans
¼	cup vegetable oil
3	tablespoons chopped onion
1	teaspoon flour
1	tablespoon water
½	teaspoon salt
⅛	teaspoon pepper
¼	teaspoon grated lemon peel
1½	tablespoons chopped parsley
½	cup commercial sour cream
2	tablespoons cornflake crumbs

Thaw green beans. Heat oil in frypan using high heat; add green beans, onions, cook stirring constantly about one minute; cover; cook additional one minute. (Note: Beans should be bright green with crisp, crunchy texture.) Stir in flour; add water, salt, pepper, lemon peel, parsley, sour cream; blend thoroughly. Pour bean mixture into a 1½ quart casserole; sprinkle with cornflake crumbs; top with grated cheese. (Casserole may be prepared ahead of time; covered with foil, refrigerated, then baked right before serving time. Increase baking time by 10 minutes.) Bake 30 minutes at 350 degrees. 6 servings.

For the Farm Wife and Family



Ladies, Have You Heard? . . .

By: Jane Thurston, Extension Home Economist

Facts Worth Knowing

THURSTON

About 13 percent of the food Americans ate during 1962 was imported, with coffee the largest part of the total. All of the coffee, tea, cocoa, and bananas we ate during 1962 were imported. Almost all of the spices, cahsew and Brazil nuts, coconuts, and olive oil were imported.

An average supermarket can supply six thousand to eight thousand different items. United States, Department of Agriculture market researchers found that some stores display as many as 85 to 135 different cuts of meat and poultry and 70 to 100 different kinds of canned vegetables.

Retail food costs probably won't go up much during 1964 report economists in the United States Department of Agriculture. Last year's three percent cost increase was due to unusual circumstances — the Florida freeze that resulted in reduced supplies of citrus fruits and winter vegetables and an increase in sugar prices.

Hidden Dividend

If you're throwing away syrups from canned fruits, you're pouring money right down the drain. Here are some ways to use the syrup.

Sweeten raw fruit or mix with other fruit juices for a beverage for breakfast or snacktime.

Combine with a small amount of sugar, cook about 10 minutes, then serve as a pudding or cake sauce.

Use for part of the liquid in gelatin salads or desserts.

Heat and spoon over pancakes or hot cereal.

Spoon over baked ham or roast pork to glaze the top.

Some Guides To Buying Prunes

Prunes are packaged according to size. The label indicates whether the prunes inside the package are small ones . . . sometimes called breakfast

● Star Farmer

(Continued from Page 1)

W. Scranton had challenged FFA youths to prepare themselves with the proper knowledge and skills so that they can take their places in Agribusiness of the future.

"I firmly believe that Pennsylvania has the greatest opportunity in agriculture of any state in the nation. We are on the edge of a rapidly growing megalopolis extending along the entire Atlantic seaboard which means a large population and a big market, all connected by our growing interstate highway system.

"In Pennsylvania we have productive land and skilled people to serve this ready market. You have a great future in this greatest of all markets in the United States if you train yourselves to be prepared to meet its needs."

At conclusion of his speech, FFA state president, Carl E. Ginder, of Mt. Joy RD, Lancaster County, presented to the governor a certificate "as a token of appreciation for encouragement, cooperation and assistance given to the Future Farmers of Pennsylvania."

The highest state degree, "Keystone Farmer," was conferred on 197 FFA members. Certificates were prsented to parents with three or more sons who have earned Keystone Farmer honors. They were: Mr. and Mrs. Willis Bowman, Myerstown, RD 1, Lebanon County; Mr. and Mrs. Carlton Curtis, Union City, RD 3, Erie County; Mr. and Mrs. Aaron H. Martin, Denver, RD 1, Lancaster County; Mr. and Mrs. Paul J. Swartz, Muncy, RD 2, Lycoming County; Mr. and Mrs. Forrest E. Rishel, Mifflinburg, RD 2, Union County, and Mr. and Mrs. Russell W. Minnich, Kutztown, RD 2, Lehigh County.

Mr. and Mrs. Howard Norman, Liberty, RD 1, Tioga County, whose son Donald received the Keystone Farmer degree Wednesday, received their certificate in 1960 when another son, Duane, was honored.

● Have You Heard?

(Continued from Page 7)

prunes . . . or medium, large, or extra large prunes. The smaller the prunes, the more in a pound package. But size has nothing to do with quality.

Each year the prune crop varies in the supply of particular sizes. Large or small, prunes are the same fine fruit and have the same nutritive value.

In one pound of small size prunes, there'll be 67 to 85 which will make 10 to 12 servings of 7 prunes each. In one pound of large prunes, there'll be 43 to 53 which will make 8 to 10 servings of 5 prunes each. Pound for pound, there's almost no difference in the amount of edible fruit.

Some Ways To Stretch Food Dollar

Use thrifty meat cuts that have the same flavor and food value as the more expensive cuts. Consider chuck roasts, pot roasts, short ribs, end-cut pork loin roasts, smoked picnics, pork shoulder steaks and roasts.

Use low cost, nutritious vegetables, such as potatoes, onions, carrots, parsnips, turnips, and rutabagas, often in your menu plans.

Read food ads and clip coupons ahead of time. Keep up-to-date with food prices, then you'll know if special prices are really bargains.

Buy more than one can or package if a quantity discount is offered only if you can use the extra package to advantage.

Be a considerate shopper. If you pinch, drop, or squeeze produce, you and other shoppers pay higher prices to cover the loss.

Same Uniform Feedmaking
Plus **13 New Features**

This is a good time for a Mix-All demonstration! There are 13 new features to show you.

Come on in. You'll see the new auger feeder drive that loads ingredients at *hundreds* of speeds. See the high-speed unloading transmission that empties 2 tons of feed in 5 minutes. Then, there's the new concentrate hopper at the rear, the calibrated tank, and 9 other new and useful features.

GRINDS, MIXES, DELIVERS RATIONS

ONE THING GEHL HASN'T CHANGED, though. The Mix-All still grinds and mixes with uniform precision. In the mill, 66 thin, reversible steel hammers cut (not pound) ingredients on a big 507 sq. in. grinding surface. The ration is thoroughly mixed in the 2-ton hopper.

We'd like to prove all this with a demonstration. Why not ask us?

More than a century of service GEHL

FARMERS FRIEND CO. **NAPOLEON, OHIO**

Ful-O-Pep Cattle-izer Dairy Feed

TRADEMARK

is the talk of dairymen everywhere

Here's why: In milk room after milk room, gleaming tanks are filled with evidence: more milk per cow . . . more milk per ton of feed.

Representing a new concept in dairy nutrition, Ful-O-Pep Cattle-izer Dairy Feed allows the cow to get as much as 20% more energy from the same amount of feed. This extra energy is used to produce more milk.

That's why North, South, everywhere . . . dairymen are talking, checking, and *feeding* new Ful-O-Pep Cattle-izer Dairy Feed.

Ask your neighbor about his results with Ful-O-Pep Cattle-izer
